

Oran Park CCTV System

CCTV – Closed Circuit Television

A Closed Circuit Television network has been installed on public land at key community facilities and main entry points in Oran Park to enhance community safety. The system helps deter criminal activity and assists local Police in investigating potential offences, creating safer spaces for everyone to enjoy.

CCTV locations

- Dawson-Damer Park Water Play Space & Playground
- Julia Reserve Youth Precinct
- Doohan Reserve All Abilities Playground
- Perich Park
- Podium Way
- Entry and exit points to Oran Park suburb

A comprehensive CCTV policy governs how the system operates. It ensures footage is used responsibly, in line with strict privacy protections.

Access to footage is limited to NSW Police and only permitted when investigating potential crimes.

This project has been delivered under the Smart Cities Initiative, which harnesses technology to improve the quality of life for residents.
